Ainsworth, Nicholas

EDUC 265 LEC A: APPLIED REGRESSION (12560)

Instructor

Instructor Name: Ainsworth, Nicholas

Title: TEACHG ASST-GSHIP

UCI Email: ainsworn@uci.edu

Department: Edu/Instruction & Research

Class

Term: Winter 2026

Section: EDUC 265 LEC A: APPLIED REGRESSION (12560)

Enrollment Count: 20

Evaluation

Form: Final Evaluation (Graduate Teaching Assistants W26)

Total Enrollment: 20

Total Responses: 18

Response Rate: 90%

Response Window: 3/2/26 12:00PM - 3/13/26 11:50PM

Evaluation Results

The data on these anonymous evaluations will be compiled and the information used for the instructor's merit and promotion cases, for departmental evaluations of the instructor's performance, and to improve this course.

Grid Question Header

Question #1 • Grid Question • 18 responses (100%)
The TA was knowledgeable about the subject matter.

RESPONSES	COUNT	PERCENTAGE
No Opinion Answer value: None, not counted in stats	0	0%
Strongly Disagree Answer value: 1	0	0%
Disagree Answer value: 2	0	0%
Agree Answer value: 3	0	0%
Strongly Agree Answer value: 4	18	100%

Mean: 4.00
Median: 4.00
Standard deviation: 0.00

Min: 4.00
Max: 4.00
Mode: 4

Question #2 • Grid Question • 18 responses (100%)
The TA was able to communicate effectively with me.

RESPONSES	COUNT	PERCENTAGE
No Opinion Answer value: None, not counted in stats	0	0%
Strongly Disagree Answer value: 1	0	0%
Disagree Answer value: 2	0	0%
Agree Answer value: 3	0	0%
Strongly Agree Answer value: 4	18	100%

Mean: 4.00
Median: 4.00
Standard deviation: 0.00

Min: 4.00
Max: 4.00
Mode: 4

Question #3 • Grid Question • 18 responses (100%)
The TA was able to integrate the lecture and discussion materials.

RESPONSES	COUNT	PERCENTAGE
No Opinion Answer value: None, not counted in stats	0	0%
Strongly Disagree Answer value: 1	0	0%
Disagree Answer value: 2	0	0%
Agree Answer value: 3	0	0%
Strongly Agree Answer value: 4	18	100%

Mean: 4.00
Median: 4.00
Standard deviation: 0.00

Min: 4.00
Max: 4.00
Mode: 4

Question #4 • Grid Question • 18 responses (100%)
The TA was responsive to students.

RESPONSES	COUNT	PERCENTAGE
No Opinion Answer value: None, not counted in stats	0	0%
Strongly Disagree Answer value: 1	0	0%
Disagree Answer value: 2	0	0%
Agree Answer value: 3	0	0%
Strongly Agree Answer value: 4	18	100%

Mean: 4.00
Median: 4.00
Standard deviation: 0.00

Min: 4.00
Max: 4.00
Mode: 4

Question #5 • Grid Question • 18 responses (100%)
The TA was accessible during lab/office hours.

RESPONSES	COUNT	PERCENTAGE
No Opinion Answer value: None, not counted in stats	0	0%
Strongly Disagree Answer value: 1	0	0%
Disagree Answer value: 2	0	0%
Agree Answer value: 3	0	0%
Strongly Agree Answer value: 4	18	100%

Mean: 4.00
Median: 4.00
Standard deviation: 0.00

Min: 4.00
Max: 4.00
Mode: 4

Question #6 • Text Response • 15 responses (83%)
Your comments on the best qualities of this TA.

Results:

- Nick was such an amazing TA! I really enjoyed having him as the TA for Applied Regression. Personally, I have struggled with retaining statistical knowledge from previous classes, yet Nick has consistently reassured me that I have the potential and ability to succeed in this class. Nick's presence was calming and reassuring. When he led the lab section for this course, material from class started to click and make sense. I really enjoyed how he structured his content for the lab. I also am so thankful for how flexible and available Nick was to meet with students. I always felt safe and welcomed in his office hours. I am so grateful for all of the advice and help he provided me during our meetings.
- Nicholas demonstrated excellent student centered pedagogy throughout the course. He consistently made himself available for office hours and went out of his way to support students. He created an environment where I felt comfortable admitting when I didn't understand a concept, and he responded with patience and encouragement rather than judgment. His teaching approach was highly supportive and interactive. He explained concepts clearly, worked through examples, had us practice applying ideas, and sometimes wrote out key points on the board to reinforce understanding. Overall, he fostered a welcoming learning environment and made complex regression concepts much more approachable.
- Nick did a great job breaking down the materials in lab and walking through a lot of the challenging topics. I always appreciated that he would both use STATA but also use the whiteboard to help really go in depth when we had questions about problems or general concepts. He was very kind and approachable. If we emailed him, he responded very quickly. He had very accessible office hours and made it easy to schedule if needed. He also had a great turnaround with the grades. He was an amazing TA!
- Nick was super helpful throughout the quarter. He made himself available whenever we needed help and even offered up sessions beyond his office hours to support us with any difficulties, questions, or concerns. Nick was thorough in his explanations and extremely patient with students whenever we needed them reworded or repeated. He truly went above and beyond to ensure we could understand the course materials and was pivotal to my success in the course.
- Nick was very patient and understanding when I would go to his office hours.

During our lab sessions he also showed the same skills, which even some professors lack. I specially liked that he would try his best to understand the problem or issue we had to be as helpful as possible. He seems well equipped to be teaching the subject and be an instructor. His response time was adequate and availability was flexible.

- Nick is SO kind. Truly so accessible, friendly, polite, and patient. Also extremely helpful he is so well-versed in STATA (would always show very helpful short cuts or alternative codes) and any time our prof would "put Nick on the spot" to explain something further/norms for his speciality, he was also prepared and knowledgeable!
- Nick was amazing on all fronts! He provided detailed and helpful feedback on all assignments in a timely manner. He took the time to clarify all of our questions during lab, and make concepts from lecture clear and connected to the application of Stata. He would make a fabulous instructor!
- Nick is an amazing TA! He is very knowledgeable about the content and tailors the lab sessions to students' clarifying and practical questions. He is really fast at grading all of our assignments and takes the time to leave detailed, constructive yet positive comments on our work.
- Nick was an amazing teacher. He took time to meet with students and thoughtfully answer their questions. Dealing with challenging content, Nick always took instruction in stride and made sure to model with visuals when topics were confusing.
- The best qualities that Nick has is that he is so patient and so knowledgeable. I can ask a lot of small questions and he does not make me feel silly. I really appreciate his help during this tough class. He is an amazing TA!
- Nick was an amazing TA! He was so kind and understanding. He made the class material super easy to understand. He was very available to help students during office hours which was really helpful.
- Nick has a deep understanding of regression and all the statistical knowledge in research. I felt welcomed in seeking help from him and he is always patient.
- super kind and approachable, non-judgmental and always willing to make time for students
- Always available and willing to solve any doubts. Very resourceful.
- Responsive, understanding, good teacher

Question #7 • Text Response • 14 responses (78%)

Do you have any recommendations for your TA that would help them be a more effective TA in the future?

Results:

- I think Nick should help the instructor on record incorporate more pedagogical principles into the lecture portion of this class. The lectures were very dry 3-hour one-man shows. Then during lab, Nick would sum it all up so clearly in 15 minutes. Nick taught us understanding that regression and Stata was a novel concept for us and did an excellent job of making the content accessible and applicable.
- One way that Nicholas could be even more effective in the future is by continuing to incorporate structured practice opportunities during instruction.
- No, he has done everything perfectly. He actually did more than TA's work, I think he will be a great faculty in the future.
- Keep doing what you are already doing! Your future students will be incredibly fortunate to have you as their TA/Professor.
- I don't really think so. I think he did a really great job and was a really great TA!
- The only suggestion I would give is to be more assertive during classroom sessions.
- He is awesome! Can't wait to see him as a Professor.
- none thank you for a great semester
- no, Nick was incredible
- No, he was fantastic!
- Nope! He was AMAZING.
- N/A
- NA
- No

Thank you for helping to increase teaching excellence at UCI!
